

UCF Advising Updates Forum 2018 WELCOME

Dr. Jessica Simmons
2017-18 Academic Advising Council Chair

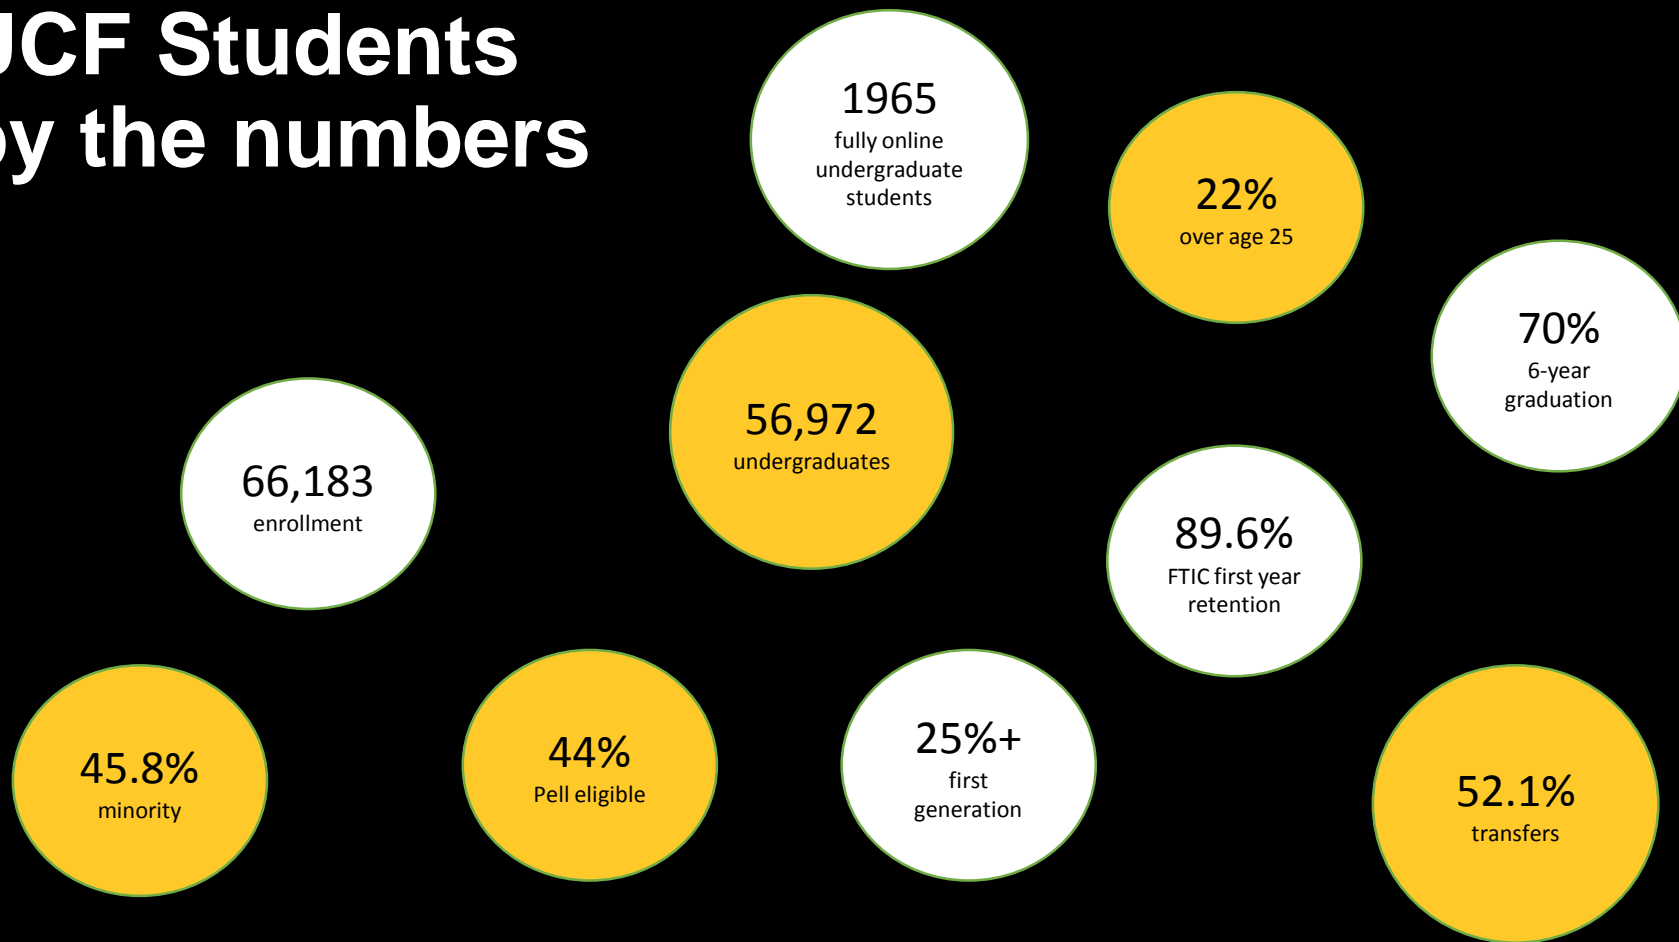

Scale **x** Excellence = **Impact**

A photograph of three young women with long dark hair, all wearing sunglasses and smiling. They are outdoors in front of a brick building with green foliage in the background. The woman on the left is wearing a black shirt, the middle one a white shirt with a gold 'K' logo, and the right one a maroon shirt. The text 'CURRENT ENROLLMENT' is centered above the large number '66,138 STUDENTS' in a bold yellow font.

CURRENT ENROLLMENT

66,138 STUDENTS

UCF Students by the numbers

Academic Advising as a Profession - 1979

1. Advising has measurable impact upon students.
2. Advising must be recognized within the institution.
3. Advising must have well-articulated goals.
4. Components and criteria for quality advising must and can be isolated for the purposes of research, improvement, and evaluation.
5. Research is essential to discover new advising methods and to improve present methods.
6. Central coordination of advising is necessary to prevent fragmentation and to maintain advising excellence.

(Toni Trombley, 1979, NACADA Presidential Address)
